Re: REACH

In June 2007, The European Union Regulation (EC) 1907/2006 concerning the registration, evaluation, authorization and restriction of chemicals (REACH) entered into force. This regulation establishes specific duties and obligations on companies in the European Union (EU) that manufacture or import substances on their own, in preparations or in articles.

Under the structure of the REACH regulation, DESTACO is a manufacturer and supplier of "articles" to our EU customers through global entities. We do not manufacture or supply "substances" or "preparations" and our articles do not involve the "intentional release of substances". Accordingly, we do not foresee any registration or pre-registration requirement for the products that we supply to you.

For further information on our company or products, please visit: <https://www.destaco.com/>
